Re: NPDES Permit No. TX0004910

Dear Mr. McGinnes:

Your application for a National Pollutant Discharge Elimination System (NPDES) permit was recently received in this office, it has been received and determined to be complete. As specified in Part 124.3(c) of the Consolidated Permit Regulations which were published in the Federal Register on May 19, 1980, your application has been reviewed and determined to be complete. However, it is possible that processing of your expiring application may require time in accordance with Federal and State priorities for water pollution abatement. Also, please be advised that submitting the expiring permit application does not relieve your obligation to meet current permit requirements. Therefore, you must attempt to meet all permit requirements to the best of your ability.

Thank you for your cooperation. If you have any questions concerning this submittal, please contact Ms. Linda Hunter at (214) 767-2765.

Sincerely,

JW 2/12/82

Jayne Watson, Chief
Permits Issuance Section (6W-PS)
